

Internet Survey

How you can help.

In preparing our plan for a cooperative broadband solution for Clarion, we found we needed more information from you. Whether you're at a business or at your home, we at ARCC need help determining your internet speed. In determining your internet speed we at ARCC can potentially help direct resources in the right direction.

To determine your internet speed we will need you to run an internet speed test. This test will not require you to download a program. The test will only require you to go to <http://www.speedtest.net/> Please be ready to record the upload speed, download speed, and your current internet service provider which will be provided through the survey.

After you click on <http://www.speedtest.net/> click begin test. The test will about a minute to complete. After you complete the test, please [click here](#), and complete a survey.

Thank you so much for your time. Forward this onto as many individuals as you can, the more information we collect the better we can help serve the community.
